WHOLESALE

HAMMONTON HARDY PLANT NURSERY

HAMMONTON

NEW JERSEY

FALL 1925

INTRODUCTION

In presenting our fall catalogue to the horticultural trade, we take the opportunity of thanking our friends for their kindly support during the last three years. We set out to grow only perennials and to confine ourselves strictly to a wholesale trade. The steady increase in our business has confirmed our faith in the soundness of that policy. Impelled by new enthusiasm, we shall rigidly adhere to that policy and shall leave nothing undone to ensure complete satisfaction to our customers.

A perusal of our catalogue will show that while we grow most of the popular favorites, we have many plants that are unusual and different. With few exceptions the stocks offered are large, and we are confident of being able to take care of all orders entrusted to us. Our descriptions have been taken from plants when in flower and no pains have been spared to make them accurate and dependable.

TERMS

Accounts are due in thirty days.

Orders from unknown correspondents, unaccompanied by cash or references, will not be filled. If plants are required in a hurry, we suggest that cash and references be sent with the first order. This will be promptly forwarded, and we will at once take up the question of shipping future orders on open account.

Prices in this catalogue include packing.

HARDY PERENNIALS

	Per Doz	-Per 100
ACHILLEA		
filipendulina. A strong growing plant with fern-like foliage, bearing large, flat heads of yellow flowers. 4 ft. July-August.		\$12.00
Ptarmica Boule de Neige. This and the following variety are among the most valuable of hardy plants for cutting. If they are cut hard back after the first flowers are past a second crop will be produced in early fall. Sprays of small double white flowers. 12 to 18 inches. June-September.		10.00
"The Pearl. A stronger growing variety than the foregoing, bearing larger flowers. 2 ft. June-September.		10.00
tomentosa. A dwarf rock plant bearing heads of bright yellow flowers. 6 in. June.	1.50	10.00
AETHIONEMA (Lebanon Candytuft). A family of rare and beautiful, dwarf sub-shrubs thriving in sunny, well drained positions on the rock gar- den.		
coridifolium. A trailing species bearing heads of bright pink flowers. 9 inches. April-May.	3.00	20.00
grandiflorum. A dainty and beautiful plant. It forms a compact bush and is covered in July with clusters of pink flowers.	3.00	20.00
AGROSTEMMA		
coronaria. Bright crimson flowers and gray woolly foli-		
age making a pleasing contrast. 2 ft. June- July.	1.25	8.00
" alba. A white variety of the preceding.	1.25	8.00

	Per Doz.—	Per 100
AJUGA genevensis. Short spikes of intense blue flowers. A good rock plant. 6 inches. June.	1.50	10.00
ALYSSUM argenteum. Large flat heads of golden yellow flowers borne on wiry stems. 1 ft. May-June.	1.50	10.00
popular of spring flowering plants. Masses of yellow flowers in April and May. 1 ft.	1.25	8.00
ANCHUSA italica Opal. Tall spikes of pale blue flowers, resembling giant forget-me-nots. 4 ft. June-July.	2.00	12.00
ANEMONE		
Pulsatilla (Pasque Flower). Large cup shaped, bluish purple flowers, filled with golden anthers, borne singly on stems 1 ft. high. April-May.	1.50	10.00
" rubra. A mahogany colored form of the lastfl	1.50	10.00
ANTHEMIS tinctoria Kelwayi. Bright yellow daisy-like flowers in great profusion. Good for cutting. 2 ft. June-September.	1.25	8.00
AQUILEGIA (Columbine). An attractive and popular group of spring flowering plants which should be well represented in every collection of perennials. They are adapted for border or rock garden and their bright, various colored flowers are valuable for cutting.		
chrysantha. A tall and beautiful species bearing soft yellow flowers. 3 ft. May-June.	1.50	10.00
coerulea. Blue and white flowers with long slender spurs. 2 ft. May-June.	1.50	10.00
flabellata. A dwarf species bearing ivory white flowers. 1 ft. May—June.	1.50	10.00
Mrs. Scott Elliott's Strain. This is probably the best strain of long spurred hybrids. The flowers are		
of rich and varied colors. 2-3 ft. May-June.	1.50	10.00
nivea grandiflora. Large pure white flowers. Strong grower. 2 ½ ft. May-June.	1.25	8.00
ARABIS (Rockcress) alpina. A useful early flowering plant suitable for rock garden, border or for spring bedding. 9		
inches. April-May.	1.50	10.00
" fl. pl. A double flowered variety of the above.	2.50	15.00

P	er Doz.—	Per 100
ARENARIA. (Sandwort)	CI DUZ	101 100
laricifolia. White flowers freely borne on wiry stems.		
6 inches. May-June.	2.00	12.00
montana. One of the best rock plants for trailing		
over a ledge. Cascades of glistening white		
flowers in May.	2.00	12.00
ARMERIA. (Thrift, Sea Pink)		
alpina. A dwarf, dainty species with heads of pink		
flowers. 4 inches. April-May.	1.50	10.00
Cephalotes. (Giant Thrift). Strong tufts of foliage		
and heads of silvery pink flowers borne on stout		
stems. 1 ft. May-July.	1.50	10.00
maritima alba. Compact tufts of grass-like foliage en-		
tirely covered in May and June with globular		
heads of white flowers. 6 inches.	1.50	10.00
" Laucheana. Similar to the preceding but having		
pink flowers.	1.25	8.00
ARTEMISIA		
lactiflora Fragrant spiraea-like plumes of creamy		
white flowers are borne on stout, erect stems		
from August to October. 5-6 ft.	1.50	10.00
ASCLEPIAS tuberosa. Strong stems treminating in clusters of bright orange red flowers. 2½ ft.		
July-September.	1.50	10.00
	2.00	
ASPHODELINE (Asphodel)		
lutea. Grassy foliage and stately spikes of yellow lily- like flowers. 3-4 ft. May-June.	2.00	12.00
	2.00	12.00
ASTER. (Michaelmas Daisy, Starwort). As a plant of		
general usefulness the aster stands unrivaled.		
The great variety in color, size of flower, time		
of flowering and height, combined with simple		
cultural requirements make it one of the		
most desirable of hardy plants. Many of		
the varieties are excellent for cutting. The finest flowers and strongest spikes are obtained		
if the plants are divided annually.		
NEW VARIETIES		
Chastity. Graceful arching sprays of white flowers. 3 ft. September.	2.00	12.00
Bluebeard. Very large, heliotrope flowers on strong, erect stems. 4 ft. September and October.	2.00	12.00

P	er Doz.—	-Per 100
Enchantress. Compact bushes of heath-like foliage entirely covered with small, dainty, pale lavender flowers. 3½ ft. September.	2.00	12.00
King Edward VII. Long slender stems thickly clothed with deep lavender flowers. 4 ft. September-October.	2.00	12.00
Louvain. Symmetrical bush-like habit. The foliage is completely hidden by masses of medium size, delicate pink flowers. 3 ft. September. Lovely Numerous erect stems form a dense bush, the	2.00	12.00
whole plant being entirely hidden by masses of pink flowers in September. 2 ft.	2.00	12.00
Osprey. A compact bush smothered with creamy white flowers. September. 2½ ft. Golden Spray. Drooping sprays of white flowers with	2.00	12.00
conspicuous yellow anthers. 3 ft. September. The Queen. The flowers are extra large and are borne in loose sprays on long straight stems. They	2.00	12.00
open pale mauve and turn nearly white with age. 4 ft. September.	2.00	12.00
GENERAL COLLECTION		
Climax. Large, pale mauve flowers, with yellow centers, are borne on long slender stems. 5 ft. September-October.	1.50	10.00
Maggie Perry. Soft pink flowers borne in immense trusses. 4 ft. September-October.	2.50	15.00
Blue Gem. Bright blue flowers with three or four rows of petals. This is probably the best blue aster. 3 ft. August-September.	2.50	15.00
Perry's White. A very free flowering variety of grace- ful habit. The flowers are large and of good substance. Excellent for cutting. 4 ft. Sep-		
tember-October. St. Egwyn. This variety forms a compact bush, and during September is entirely covered with	1.50	10.00
large, clear pink flowers. One of the best asters in cultivation. 2½ ft. Well's White. Stout, erect stems bearing a profusion	1.50	10.00
of medium size flowers, creamy white in color. 4 ft. August-September.	1.50	10.00
White Climax. A pure white variety of Climax.	1.50	10.00

	er Doz.—	-Per 100
N. A. Lil Fardel. Large, clear pink flowers. 4 ft. September-October.	1.50	10.00
ASTER, DWARF ALPINE		
alpinus. Large bluish purple flowers. 9 inches. May-	4.50	10.00
June.	1.50	10.00
albus. A white variety of the foregoing.	1.50	10.00
AUBRIETIA deltoidea. Raised from seed of named varieties of this species; various shades of pink and lavender. 6 inches. April-May.		
BAPTISIA australis. (False Indigo) A first rate border plant bearing sprays of dark indigo blue flowers, resembling lupines. When well established, this is a valuable plant for cutting. 3 ft. June-July.	1.50	10.00
BOCCONIA cordata. A tall growing, stately plant with		
handsome, gray, glaucous foliage bearing pan-		
icles of creamy white flowers. 6 to 8 ft. July-August.	1.25	8.00
BOLTONIA		
asteroides. A tall aster-like plant of vigorous habit, more suitable for naturalizing than for border.	1.25	8.00
latisquama. Not so strong growing as the last. Pink flowers. 5-6 ft. September.	1.25	8.00
" nana. A somewhat uncommon plant deserving wider recognition. It forms a compact bush, 3 ft. in height, and in September is smothered with dainty pink flowers.	2.00	12.00
campanula (Bellflower) One of the most beautiful and important families of hardy plants. Having a very wide geographical distribution, its members are extremely varied in character and are adapted for rock garden, border and woodland.		
alliariaefolia. Handsome heart shaped leaves and creamy white, pendulous flowers. 2½ ft.	1.50	10.00
June. bononiensis. Small blue flowers profusely borne on	1.00	10.00
numerous slender, graceful stems. 2½ ft.	1 50	10.00
June.	1.50	10.00
carpatica. This is one of the few dwarf plants that flower during late summer, and on that account is particularly desirable for the front of a		

Pe	er Doz.—	-Per 100
CAMPANULA (Continued)	J. 202.	101 100
border or rock garden. It produces branching stems bearing upright, cup-shaped blue flowers, 1½ inches or more in diameter. 1 ft. July-August. We would point out that our stock of this and the following variety have been propa-		
gated by cuttings from one plant each of their respective colors, selected from a large number		
of seedlings. This ensures uniformity of shade		
of color, shade of flower and habit of growth.	1.50	10.00
" alba. A white variety of the preceding.	1.50	10.00
glomerata. Clusters of tubular, violet-purple flowers, borne on strong upright stems. 1½ ft. July.	1.50	10.00
Medium. (Canterbury Bell). Blue, pink, white, sep-		
arate.	1.00	7.00
" calycanthema. (Cup and Saucer) Mixed Colors. pericifolia. Slender, graceful stems studded with blue, cup shaped flowers in June and July. 2½	1.00	7.00
ft.	1.50	10.00
" alba. A white variety of the above.	1.50	10.00
CARYOPTERIS (Blue Spiraea)		
mastacanthus. A compact free flowering plant of sub-shrubby habit with attractive gray foliage; it is covered during fall with trusses of lavender-purple flowers. 2½ ft.	1.50	10.00
CASSIA (Indian Senna)	2130	10.00
marylandica. Clusters of yellow pea shaped flowers. 5-6 ft. July-September.	1.50	10.00
CATANACHE (Cupidone)		
coerulea. A free fiowering, old fashioned plant; blue flowers which last well when cut. 1½ ft. June-August.	1.25	8.00
CENTAUREA		
dealbata. Handsome, deeply cut foliage, white on the under side; rose pink flowers, 2 ft. July-		
September.	1.50	10.00
macrocephala. A stately plant of robust habit, bearing large globular heads of golden yellow flowers.		
4 to 5 ft. July-August.	1.50	10.00
montana. Woolly foliage and bright blue flowers. 1½ ft. June-July.	1 50	10.00
" alba. A white variety of the preceding.	1.50	10.00
aina. A write variety of the preceding.	1.50	10.00

Ţ	er Doz.—	Per 100
CENTAUREA (continued)	CI 1502	-r ct 100
ruthenica. Finely divided leaves and golden yellow		
flowers borne on slender, graceful stems. 3 ft.		
July.	1.50	10.00
CEPHALARIA tartarica. A tall scabiosa-like plant bear-		
ing large golden yellow flowers on long stems.	1.25	8.00
CERASTIUM tomentosum. Forms a carpet of silvery foliage, covered in May with pure white flowers.	1.50	10.00
CHRYSANTHEMUM		
maximum. (Shasta Daisy). A useful plant for cut- ting, the large, white daisy-like flowers are pro- duced over a long period. 2 ft. June-Septem-		
ber.	1.25	8.00
uliginosum. White flowers with green centers on long straight stems. 4-5 ft. August-September.	1.50	10.00
CLEMATIS integrifolia. Drooping, blue flowers are borne towards the top of erect stems about 2 ft. high. July-August.	2.00	12.00
COREOPSIS grandiflora. One of the best hardy plants for cutting; bright yellow flowers are borne on long graceful stems throughout the summer. 2½ ft.	1.00	7.00
DELPHINIUM		
Belladonna. An invaluable plant for cutting; sky-blue		
flowers in great profusion from June until frost. 2½ to 3 ft.	1.25	8.00
formosum. A robust growing Larkspur having dark blue flowers with white centers. 4 ft. June- September.	1.25	8.00
grandiflorum. (chinense) Gentian-blue and finely	1,20	0.00
divided foliage. 2 ft. June-September.	1.25	8.00
" album. A white variety of the above.	1.25	8.00
Mixed Hybrids. Raised from seed of H. J. Jones'	1120	0.00
named varieties.	1.25	8.00
DIANTHUS		
alpinus. A lovely dwarf Alpine with large deep pink flowers borne close down to the foliage, which they entirely hide.	3.00	20.00
arenarius. A desirable rock plant of compact, tufted habit. During May and June the foliage is en- tirely hidden by masses of deeply fringed, frag-		
rant, white flowers borne on 6 inch stems.	1.50	10.00

	Per Doz.—	-Per 100
DIANTHUS (Continued)		
caesius. (Cheddar Pink) Blue gray cushions of foli age and rosy pink, sweetly scented flowers May-June.		10.00
deltoides. (Maiden Pink) A trailing rock plant also useful for border edging. June-July.	1.50	10.00
" albus. A white variety of the foregoing.	1.50	10.00
" Brilliant. A vivid crimson variety.	1.50	10.00
plumarius. A first rate mixture of fragrant, beauti fully frilled flowers varying from white to crimson.		8.00
"Miss Gladys Cransield. A new variety of exceptional merit. It is of compact growth and bear large, flat rosy lilac flowers with velvety maroot centers on stems about 1 ft. high. The plant we offer are not seedlings, but the true stock.	s n	15.00
DIETLYTRA formosa. Dainty fern-like foliage and pendulous, lyre shaped flowers of a pleasing shad of pink. 1 ft. May-August.		12.00
DIGITALIS (Foxglove). One of the showiest and mos attractive of old fashioned favorities whos popularity is continually increasing.		
gloxinaeflora. Pink, purple, white, separate.	1.00	7.00
"The Shirley. A new strain raised by the lat Rev. W. Wilks, the originator of the well known Shirley Poppies. The flowers are of enormou size and vary in color from pure white to deep est rose.	n s	10.00
DRACOCEPHALUM Ruyschianum. One of the showies	t	
of spring flowering plants and one we highly recommend to those seeking something unusual. It forms a clump of many stems, each stem being thickly covered during May with purplish blue, tubular flowers. 1½ ft.	i. :-	12.00
ECHINACEA purpurea. (Purple Coneflower) A distinct plant of uncommon beauty. Large pink ish purple flowers having cone-shaped, orange red centers are borne on strong, straight stem 3 to 4 feet in height. July-August.	-	10.00
		-

Pe	er Doz.—	Per 100
echinops (Globe Thistle) Vigorous and stately plants, ornamental both in flower and foliage. The large, handsome leaves are spiny at the tips and are covered with silvery down.		
Ritro. Globular heads of glistening blue flowers. 4 ft. July-August.	1.50	10.00
sphaerocephalus. Heads of grayish white flowers. 6 ft. August.	1.50	10.00
ERIGERON		
glaucus. Violet blue flowers. 1½ ft. May-June. speciosus. A free flowering and vigorous plant bear-	1.50	10.00
ing medium size, purplish-lilac, daisy-like flowers. Good for cutting. 2 ft. July-August.	1.25	8.00
ERINUS		
alpinus. Pretty rosettes of foliage and racemes of rosy purple flowers. A first rate rock plant and also invaluable for establishing on old walls and be-		
tween steps. 6 in. May-June.	2.50	
" albus. A white variety of the foregoing.	2.50	
ERIOPHYLLUM caespitosum. A good plant for dry position on rock garden. Bright yellow flowers and gray foliage. 9 in. June-July.	2.50	15.00
ERYNGIUM (Sea Holly)		
planum. Small flower heads and steely blue stems. Good for cutting and drying. 2½ ft. July- August.	1.25	8.00
EUPATORIUM		
coelestinum. Very free flowering and one of the best		
hardy plants for cutting. Masses of blue, ageratum like flowers from August to October. 2 ft.	1.25	8.00
Fraseri. Feathery white flowers. 2 ft. July-September.	1.25	8.00
EUPHORBIA (Spurge)		
corollata. The value of this plant for cutting is not fully appreciated. It is well adapted for shipping, and its small pure white flowers take the place of Gypsophila paniculata when that is past. Best results are obtained by allowing it to remain undisturbed for several years. 1½	1.25	8.00
to 2 ft. August-September.	1.20	8.00

	Per Doz.—	Per 100
EUPHORBIA (continued) Myrsinites. An uncommon plant particularly suitable for a hot, dry position on rock garden. It is of trailing habit and has thick stems covered with blue-gray, glaucous leaves; each stem terminates in a cluster of bright yellow bracts. June-July.		12.00
polychroma. A conspicuous object in early spring. It has a bushy, much branched habit, each branch bearing a head of yellow bracts. 2 ft. April.		10.00
FUNKIA undulata variegata. Creamy white and green variegated leaves. 9 inches.	1.50	10.00
GALEGA (Goats' Rue) officinalis. Clusters of fragrant, bluish lilac, pea shaped flowers. 2-3 ft. July. "alba. A white variety of the above.	1.25 1.25	8.00 8.00
GERANIUM	1.20	8.00
sanguineum. Forms a thick mass of prostrate stems and bears a profusion of saucer shaped, blood red flowers. 1 ft. June-August.	2.00	12.00
" album. A white variety of the above.	2.00	12.00
GEUM Lady Stratheden. A new variety similar in habit and growth to the well known Geum Mrs. Bradshaw. It bears large, old gold, double flowers. 2 ft. May-June.	1.50	10.00
Mrs. Bradshaw. One of the most striking of hardy plants. Slender, branching stems are produced from tufts of evergreen foliage and bear large, rich scarlet, double flowers in great profusion. A good plant for cutting. 2 ft. May-June.	1.50	10.00
GLOBULARIA tricosantha. (Globe Daisy) A low	1.00	10.00
growing rock plant bearing globular heads of pale blue flowers arising from tufts of shiny green foliage. 6 in. May-June.	1.50	10.00
GYPSOPHILA paniculata. Cloud-like masses of small white flowers.		
One of the most popular and useful plants for cutting. 2½ ft. July.	1.25	8.00
repens: A dwarf trailer, excellent for cascading down the slopes of the rock garden. Masses of small white flowers. June-July.	1.50	10.00

P	er Doz.—	-Per 100
HELENIUM. Strong growing plants, valuable for pro-		
ducing late summed and fall effects in woodland		
or herbaceous border. Also useful as a cut		
flower.		
autumnale Riverton Beauty. Clear yellow flowers with	1 50	10.00
black centers. 4 ft. August-September.	1.50	10.00
" Riverton Gem. Rich mahogany-red flowers. 4 ft. August-September.	1.50	10.00
-	1.50 1.50	
" superbum. Yellow. 4 ft. August-September. Hoopesi. Large heads of deep yellow flowers. 2 ft.	1.50	10.00
June-July.	1.50	10.00
	1.50	10.00
HELIANTHEMUM. (Rock or Sun Rose) Dwarf evergreen shrubs of spreading habit, which for free-		
dom of flowering and brilliancy of coloring are		
equalled by few and excelled by no other family		
of plants. Delighting in full sun, they will		
thrive on a hot sunny bank where few other		
plants will exist. Massed on the rock garden		
or front of herbaceous border, they are the		
most gorgeous sight in the garden during June.		
These plants deserve the close attention of all		
who are interested in rock gardening.	0.00	10.00
Fireball. Brilliant scarlet 9 inches	2.00	12.00
macranthum. Large creamy white. 6 inches.	2.00	12.00
Mrs. Earle. Double scarlet flowers 9 inches	2.00	12.00
praecox. Large, soft yellow flowers. Silvery foliage.		
9 inches.	2.00	12.00
rhodanthe carneum. Very large, clear pink flowers.		
Silvery foliage. 9 inches.	2.00	12.00
HELIOPSIS.		
Pitcheriana. Golden yellow flowers throughout the		
summer. 3 ft.	1.25	8.00
HIBISCUS (Mallow)		
Marvel Mallows. Pink, red, white with crimson eye;		
separate.	1.50	10.00
HEIRACIUM villosum. Soft, downy, silvery leaves and		
golden yellow flowers. 1 ft. June-July.	1.50	10.00
IBERIS (Candytuft)		
sempervirens. An invaluable and popular spring		
flowering plant of dwarf and compact habit,		
bearing masses of snow white flowers produced		
in large trusses. 9 inches. April-May.	1.25	8.00

	Per Doz.	-Per 100
IBERIS (Candytuft) continued		
" Little Gem. A miniature variety of the above	e. 2.00	12.00
ceptional merit. The flowers are tubular is shape, like those of Bigninia grandiflora; the are dainty pink in color, the throat bein streaked with purple. They are borne in clusters of six to twelve flowers on stout upright stems. July. Strong flowering roots.	x- in ey eg s-	12.00
INULA

VIOLA		
pedata. (Bird's Foot Violet) Tufts of finely divided leaves and lilac b'ue flowers. 6 inches. April-May.	1.50	10.00
Jersey Gem. One of the best hardy plants of recent introduction, and one that cannot be too highly praised; it possesses every good quality that a plant should, and as far as we know, no bad ones. It blooms freely and continuously from spring until frost, and the flowers, royal purple in color, are not affected by the sun. Its foliage is a rich, healthy green, and its habit of growth is neat and compact. In the garden it can be used for edging or massing in beds and borders, and would not be inappropriate on the rock garden. Its flowers are valuable for cutting and are in good demand and we suggest that it would be a good subject for gentle forcing. We feel that our catalogue has been brought to a good conclusion by such an ex-		
cellent plant.	2.50	15.00
